Multi Use low code/no code Enterprise Mobile App Kit (Android and IOS)

VIRTUTAB

Multi Use Enterprise Tablet App platform (Android)

VIRTUQUERY

A powerful multi-platform customer information collection and management system

VirtuBox Smart Screens can be a valuable addition to a hotel, providing guests with convenient access to information and services. Here are some ways in which a VirtuBox interactive screen kiosk can be used in a hotel:

VIRTUKIOSK SMART SCREEN ECOSYSTEM IN HOTELS

Self Check-in and check-out - Reduce wait times at the front desk

Room service and dining: Guests can browse the menu, place orders, make payments directly

Concierge services - Guests can browse local restaurants, transportation options, maps, directions, and recommendations for nearby places of interest

Hotel's amenities and facilities - promote hotel spa services, fitness center, swimming pool, business center, and more. Guests can view operating hours, make reservations of these amenities from the smart screens

MORE VIRTUKIOSK SMART SCREEN ECOSYSTEM USE CASES FOR HOTELS

Event and conference information at hotel: display schedules, session details, speaker profiles, and interactive maps of the event venue. It can also allow attendees to register for workshops or sessions

Flight and transportation info: display real-time flight information, including departures and arrivals, and provide updates on transportation options to and from the hotel

Feedback and reviews: The smart screens can provide a platform for guests to leave feedback, reviews, or suggestions about their stay - improve services and address any concerns promptly

Language translation and assistance: offer language translation services to assist international guests who may not be fluent in the local language
